RE: Stream RFP #02 Stream Monitoring – Addendum #2: Modification of Required Fish Surveys, Extended Due Date and Q&A
WSSI #50000.05-C

DATE: April 27, 2020

Background:

A potential bidder noted that the survey timing should be only in the Fall to be consistent with the Fairfax SOP.

Scope of Work Change:

A. Delete the words “Spring and” as shown in the strikeout below in the section added in Addendum #1:

II. C.1.h. Fish Surveys

- (i) Conduct fish surveys in accordance with the Fish Assemblages Section IV (pages 31-33) of the Fairfax County DPWES Policies and Procedures Memorandum No. SWPD19-03:
https://www.fairfaxcounty.gov/publicworks/sites/publicworks/files/assets/documents/pdf/publications/stream_assessment_sop.pdf.
- (ii) Perform surveys on three (3) – 100m long reaches in both Snakeden and Glade streams; one near the bottom of each restored stream area, one in the general vicinity of the 300-acre minimum drainage area specified by Fairfax County, and one generally between those two.
- (iii) Surveys shall be conducted in the ~~Spring and~~ Fall of each of the six (6) monitoring years, with data compilations included in each annual monitoring report and the final report
